

HOW TO DOWNLOAD FILES FROM COR TO MY COMPUTER

Overview

Download from your OneDrive, Home Folder and Temporary Files during the COR session.

By default COR provides two folders:

- Home Folder: data stored by you in your home folder is automatically backed up and is made available to you in subsequent sessions.
- Temporary Files: data stored in Temporary Files will disappear when you end your session.

OneDrive integration requires a previous setup for getting access and connecting your OneDrive storage to COR. Please see "How to use OneDrive in COR" for further information of this settings.

Prerequisites

- Access to COR
- One Drive setup

Walkthrough

1. Click the My Files icon.

2. Choose one of the folders: Home folder, Temporary folder, OneDrive (this last one must be configured previously)

My	Files		×
	Select a folder to view files		
	Name	Last Modified	Size
	Home Folder	1.8.2018, 11:51:37	-
	OneDrive	1.8.2018, 12:30:38	-
	Temporary Files	1.8.2018, 11:51:20	-

3. Select the file that you want to download, choose the down arrow to the right of the file name, and choose Download.

<			🕂 Add Folder	[_↑] Upload Files				
	Name	Last Modified	Size					
	demo.sav	24/8/2019 12:58:00	284.1 kB					
	demo.xlsx	24/8/2019 10:58:24	15.2 kB	⊥ Download				
				🖉 Rename				

4. Select Save for saving the file in your Computer or Cancel in case you don"t want to save the selected
